

“Trudel is an author to watch. ***Raven’s Redemption*** stands out. An intelligent, poignant and tense political thriller that hooked me quickly. Highly recommended.”

Robert Dugoni, #1 Amazon and New York Times Best-Selling Author of *My Sister’s Grave*

“***Raven’s Redemption*** has compelling characters trying to protect a weakened America in a world where *jihad* is ascendant. They face terrorist cells in America, Iranian nuclear weapons and enemy agents embedded at the highest levels of our government. These things are already happening.”

General Paul Vallely, Military Expert on Geopolitics

“***Raven’s Redemption*** pulls you in and makes you think: Terrorists with Iranian nukes. John’s novels remind me of political satires and future history. Some call them “political thrillers.” If you like suspense on the bleeding edge of reality, take a look. Recommended.”

Jerry Pournelle, Best-Selling Author

“***Raven’s Redemption*** is John Trudel’s best thriller yet. He puts the reader on the edge of his seat and keeps him there. You will wonder whether this book is fact or fiction; you will pray that it’s fiction.”

Joseph Badal, Award-Winning Author of *Death Ship*
